EDUCATION

- Pursuing B.Tech Computer Science and Business System at R.M.D Engineering College.
- High School : SKNS PMC VIVEKANANDA VIDYALAYA.

WORK EXPERIENCE

Intern at IBM SkillsBuid via Edunet Foundation (Virtual) **SEP 2025**

- Implemented a simple smart study planner using HTML, CSS, and basic JavaScript.

Intern at Infosys Springboard (Virtual) **OCT - DEC 2025**

- Implemented an AI Stock Analyst using ML, which is a multi-model financial forecasting platform designed to analyze historical market data, identify trend patterns, and generate short-term predictive insights using statistical and deep learning approaches. The system integrates structured data processing, comparative model evaluation, and an interactive analytical interface to support informed financial analysis.

Intern at G-Tec Education (Onsite) **JUN - JUL 2026**

- Developed an intelligent resume analysis tool that automates the candidate screening process by extracting key information from resumes and providing data-driven job role recommendations with skill gap analysis.

PROJECT

Zero-Trust-Network-Access:

- Developed a secure Zero-Trust NFC payment system using Arduino and RFID-RC522 enabling tap-to-pay with two-factor authentication via mobile approval. The solution eliminates physical contact, prevents fraud, and supports real-time transaction processing for retail and transit environments.

ACHIEVEMENT

PAPER PRESENTATION

Presented a paper on "Zero-Trust NFC Payment System" at an IEEE International conference held at SRM University, Vadapalani, showcasing a secure, microcontroller-based contactless payment solution with two-factor authentication. The paper addressed real-world limitations of traditional payment systems, including fraud prevention and real-time transaction processing.

CERTIFICATIONS

- Consulting & Analytics club, IIT Guwahati : Data Science and Machine Learning .
- NPTEL - Soft Skill Development.
- NPTEL - Programming in JAVA
- NPTEL - The Joy of Computing using Python

SKILLS

PROGRAMMING

- JAVA
- C++
- SQL
- Python

WEB DEVELOPMENT

- HTML
- CSS
- JAVA SCRIPT

FRAMEWORK

- SPRING BOOT (basic)
- React

CORE CONCEPTS

- DSA
- OOPs

LANGUAGES

- English
- Tamil
